Brothers of Alpha Delta,

Our history at the University of Maine is certainly a rich one. In fact, as an undergraduate at the 89th Grand Chapter in Dallas in the early 90's, I remember spending time with my Brothers from Alpha Delta as they brought home far more awards than any other chapters of Phi Kappa Sigma. That inspiration gave me and many others the motivation to go back and create positive change at our campuses. My interaction with members of Alpha Delta is responsible for giving me the courage to take on the challenges necessary to better my Chapter, my campus and ultimately myself.

In recent years, our Alpha Delta Brothers have again demonstrated exceptional leadership as they developed the Skullumni Alumni Chapter. Our Alumni Chapter at the University of Maine is by far the most successful organization of alumni members that our Fraternity has seen and has provided inspiration and the model of excellence as we commit to developing a series of alumni chapters across the country in the coming years.

The Alpha Delta Chapter at the University of Maine is a critical member of our fraternal family and has a great tradition of excellence. I have no doubt that the men of Alpha Delta will again serve as an example to our great Fraternity, and demonstrate what great things can be accomplished when Brothers come together to deliver against a single mission and ensure that their Chapter remains *Stellis Aequus Durando*.

I am fraternally yours,

Joe Moidl
